Electrical Engineering Student

Khambholaj, Anand – 388330

SUMMARY

Motivated final-year Electrical Engineering student with hands-on internship experience in solar PV installation and transformer manufacturing. Seeking a Trainee Engineer role in production, testing, or maintenance where I can apply my technical fundamentals, follow SOPs and safety standards, and grow through practical learning while contributing to efficient and quality-driven electrical operations.

EDUCATION

Bachelor of Electrical Engineering (Pursuing) – 2026

Sardar Vallabhbhai Patel Institute of Technology
CGPA: 6.53

Diploma in Electrical Engineering – 2023

B & B Institute of Technology
CGPA: 7.53

SSC (10th) – 2020

C. M. Patel High School
Percentage: 65%

SOFT SKILLS

- Quick learner
- Time management
- Communication
- Teamwork
- Basic project coordination

TECHNICAL SKILLS

- Basic knowledge of transformer manufacturing & solar PV systems
- MS Office: Word, Excel, PowerPoint

INTERNSHIP EXPERIENCE

Radiant Sun Energy LLP

Duration: 15 Days (01/07/2025 – 15/07/2025)

- Assisted in rooftop solar PV system installation and wiring
- Learned basics of solar panels, inverters, and earthing
- Followed electrical safety practices and site SOPs

Atlanta Electricals Limited

Duration: 12 Weeks (05/01/2026 – 10/04/2026) (Ongoing)

- Exposure to transformer manufacturing processes
- Learned shop-floor operations, insulation, windings, and core assembly
- Observed basic transformer testing and quality checks
- Gained understanding of SOPs and industrial safety

PROJECTS

- RFID Fingerprint Base Door Lock/unlock System
- 8085 Microprocessor Trainer Kit

INDUSTRIAL VISITS

- Sardar Sarovar Hydro Electric Power Plant
- Wanakbori Thermal Power Station
- State Load Despatch Center (SLDC)
- Royal Transformers
