EDUCATION

B.E. - Electrical Engineering
Government Engineering College
Rajkot (2021-2025)
CGPA-8.10

Higher Secondary (12th Grade)
Shree Rajshakha Higher
Secondary School, Porbandar
(2020-2021)
Percentage-76.66%

OBJECTIVE

Electrical Engineer with a B.E. degree and strong foundation in power systems, circuit design, and control systems. Possess hands-on experience through internships and training in industrial environments. Detail-oriented and safety-conscious, with a strong willingness to learn and contribute to innovative and efficient engineering solutions.

WORK EXPERIENCE

JMC Sewage Treatment Plant - Jamnagar, Gujarat PRESENT
Electrical Maintenance Technician

- Performing electrical maintenance of motors, pumps, and control panels.
- Monitoring and ensuring smooth operation of plant electrical systems.
- Troubleshooting electrical faults and assisting in breakdown maintenance.

Adani Energy Solutions Ltd. - Mumbai, Maharashtra 1 Month
Graduate Engineer Trainee (GET)

- Led installation & commissioning of smart energy meters across assigned zones.
- Managed team of engineers & technicians for field execution
- Coordinated with DISCOM/client for project timeline & approvals.
- Monitored meter data, communication system (AMI/AMR) and troubleshooting

Linde India (ASU Plant) - Mundra, Gujarat 3 Months
Apprenticeship Trainee

- Learned operations of Air Separation Units (ASU) and industrial gas production systems.
- Assisted in monitoring electrical equipment and troubleshooting basic issues.
- Followed strict safety and operational guidelines in a process industry environment.

Goldi Solar Pvt. Ltd - Surat, Gujarat 3 Months
Internship Trainee

- Gained hands-on experience in solar PV module manufacturing processes.
- Studied quality control, testing, and electrical parameters of solar panels.
- Assisted in production line operations and learned industry best practices.
