- Mr. Kamlesh Rudra (winding) – 15 Years

“Thank you for your continued service, passion, and perseverance. —we are grateful to have you as part of our team”

Expert Session on Welding Technologies at TARIL Moraiya Plant

It was a moment of immense pride for Transformers & Rectifiers India Ltd. (TARIL), Moraiya Plant to welcome Dr. Vishvesh J. Badheka Sir, Chairman, IIW–Ahmedabad and Professor, PDEU, Gandhinagar, for an insightful expert session on “Conventional and Advanced Welding Technologies: Applications and Future Trends.”

The visit began with a plant tour, where Dr. Badhekasir interacted with TARIL engineers and the Technologist team. He appreciated the company’s strong focus on quality, innovation, and advanced manufacturing practices. He also shared valuable suggestions for enhancing welding process reliability and imparted insights into advanced welding technologies.

Following the tour, Dr. Badheka delivered an engaging and insightful expert talk covering the latest developments in welding—from conventional methods to advanced, automated, and intelligent systems shaping the future of fabrication. The interactive session encouraged active participation and technical discussion among the Quality and Production teams.

During the session, also discussed the activities of the Indian institute of Welding, IIW–Ahmedabad Center and shared the future plans of the center aimed at strengthening industry engagement and promoting collaborative initiatives for skill development and technological advancement.

We were further honored by the presence of Dr. Hirenkumar B. Thakkar, Professor, Department of Computer Science, PDEU, Gandhinagar who met with our top management team to discuss the AICTE-approved IDEA Lab initiative and explore potential industry–academia collaborations focused on innovation and digital transformation.

This knowledge exchange event truly reinforced TARIL’s commitment to continuous learning, research collaboration, and technological excellence.
