Junior Safety Officer | 1.5+ Years of Construction Safety Experience

Project 1: Ahmedabad Student Hostel (SH-04) Construction Project

Client: Reliance Industries

Duration: 6 Months

Position: Safety Steward

Conducted daily site safety inspections and hazard identification.

Ensured compliance with PPE requirements and safety procedures.

Assisted in toolbox talks, safety inductions, and worker awareness programs.

Reported unsafe acts and conditions and followed up on corrective actions.

Supported the implementation of HSE standards across construction activities.

Project 2: The Goodwill Tower (27-Storey High-Rise Project), GIFT City, Gandhinagar

Client: Venus Group / JLL

Duration: 1 Year – Present

Position: Safety Steward → Promoted to Junior Safety Officer

Promoted from Safety Steward to Junior Safety Officer based on performance and safety leadership.

Supervise implementation of HSE policies and procedures on a 27-storey high-rise construction project.

Conduct site safety inspections, risk assessments, and safety audits.

Monitor work-at-height activities, scaffolding, lifting operations, and permit-to-work systems.

Deliver toolbox talks, safety briefings, and induction training to workers and subcontractors.

Investigate incidents, near misses, and unsafe conditions and recommend corrective actions.

Maintain safety documentation, inspection reports, and compliance records.

Coordinate with project management, contractors, and client representatives on safety matters.
