CAREER OBJECTIVE

Performance-oriented Electrical Engineer with expertise in planning, execution, material management, and large-scale transformer project coordination. Adept at driving operational excellence, reducing delays, and aligning supply chain activities with business goals. A proactive professional with strong stakeholder management skills, committed to delivering high-impact results and advancing into leadership roles.

WORK EXPERIENCE

TESLA TRANSFORMERS (INDIA) LIMITED

Working in Tesla Transformers (India) Limited, Bhopal as Executive in Planning & Execution Department from 1st June 2023 to Till Now

Major Responsibilities as Planning & Execution Executive (TTIL & TPEPL)

- **Sales Planning :**
Prepare sales plans for both power and solar division to support production targets and business objectives.
- **Material Planning for Fund Allocation:**
Identify critical (A-class) transformer materials required to meet production deadlines and plan fund allocation to ensure timely procurement and delivery.
- **Project Execution & Inspection:**
Communicate project timelines to customers, schedule and coordinate inspection calls, and provide on-site/off-site support during inspections to ensure compliance and customer satisfaction.
- **Inventory Management:**
Maintain optimum inventory levels of critical transformer materials to ensure uninterrupted production while minimizing carrying costs. Coordinate with Purchase, Stores, and Production teams to improve material availability, stock accuracy, and overall supply chain efficiency
- **Delay Analysis & LD Case Preparation:**
Analyse internal and external causes of project delays and prepare Liquidated Damages (LD) cases for State Electricity Boards and EPC clients..
- **Customer Communication & Coordination:**
Serve as the single point of contact for customers, ensuring timely project execution, CHP inspections, and accurate commercial documentation to prevent communication gaps and maintain smooth operations.
- **Cross-Functional Coordination:**
Act as a liaison between internal departments—Marketing, Design, Purchase, Production, Quality & Testing, Commercial, Accounts, and Logistics—to streamline project planning and delivery.
- **Post-Contract Review:**
Participate in internal operational meetings, develop detailed project schedules, and initiate the Sales Operation Plan (SOP) to drive successful project execution.

- **Risk & Opportunity Management:**

Identify internal and external factors impacting marketing and project execution, conduct risk and opportunity assessments, and report key insights to department heads and senior management.

ACHIEVEMENT

- Executed end to end planning for 1100+ transformers, including EHV, IDT, WTG and Distribution jobs with a cumulative value of 800+ Cr. In FY 2024-25, ensure.
