Profile

Results-driven professional with a strong background in mechanical engineering and hands on industry experience. Recognized for my problem solving abilities and clear communication, fostering collaborations across teams. Passionate about leveraging my expertise to drive supply chain excellence and contribute to innovative engineering solutions in a dynamic, growth-oriented environment.

Employment History

Executive - Supply Chain Management, CG Power and Industrial Solutions Limited. (Aug 2023 – Present)

As a dedicated professional in the power transformer manufacturing unit, I manage the complexities of production and material planning with a focus on reducing inventory levels and optimizing manufacturing efficiency. My key responsibilities include:

- Developing and executing comprehensive manufacturing plans on a half-yearly, monthly and daily basis to align production schedules with business goals and sales targets.
- Ensuring optimal material availability to support production while minimizing excess inventory, working closely with procurement teams to forecast material requirements accurately.
- Leveraging the SAP MM/PP(Material Management and Production Planning) modules to streamline operations, manage production processes and maintaining alignment between inventory levels, production capacity, and demand.
- Continuously monitoring production and making adjustments to meet sales targets and ensuring OTD's to customer, while improving operational efficiency and cost-effectiveness.
- Focusing on the efficient utilization of critical production bottlenecks, including winding and VPD(vapour Phase Drying)processes, to maximize throughput, reduce delays, and ensure timely delivery of transformer components.

Education

B.Tech-Mechanical Engineering, Madhav Institute of Technology and Science, Gwalior. (August 2019 – June 2023)

8.43 CGPA

Internships

Engineer Trainee,NHK Spring Inida Ltd., Gurugram. (Jan23 – May23).

- Frequently inspected production area to verify proper equipment operation.
- Conducted evaluations of equipment and machinery to verify optimal performance and efficiency.
- Collected samples during production and tested randomly to determine in-process quality.
- Utilized gauges tools and equipments to complete in-depth assessments.

Vocational Trainee, Bharat Heavy Electricals Limited (BHEL), Jhansi (Jun22 – Jul22)

- Attended training courses to build understanding of processes, techniques, and Industry.
