## Work Experience

### Quantsolar Technologies Pvt Ltd.

Management Trainee (Finance)

July 2025 – Present

New Delhi, India

- Financial Planning & Forecasting:** Developed 5-year projected cash flows to support budgeting, fundraising initiatives, and long-term strategic planning.
- Valuation & Cost of Capital Analysis:** Built valuation models including DCF and Enterprise Value (EV), and assessed the cost of capital for banks providing Cash Credit (CC) limits.
- Working Capital & Limit Enhancement:** Assisted in enhancing CC limits with banks and coordinated NSIC limit enhancement to improve working capital availability.
- Investor Relations & Due Diligence:** Coordinated with VC/PE investors and investment bankers, prepared due-diligence responses, and maintained the investor outreach database.
- Financial Performance Analysis:** Conducted common-size statements and key financial ratio analysis to evaluate historical performance and identify financial trends.
- Corporate Reporting & Documentation:** Independently prepared the FY 2024–25 Annual Report, authored the MD&A section, and designed the 2025 corporate brochure outlining the company's business model and strategic vision.
- Banking Operations & Compliance:** Managed Bank Guarantee (BG) issuance, FDR handling, and ensured accuracy and compliance across daily banking and financial processes.

## Internship

### ZF CVCS India Ltd.

Finance Intern

April 2024 – June 2024

Chennai, India

- Financial Analysis & Compliance:** Assessed ZF CVCS and Bosch's financials to identify competitive advantages and ensure compliance with IFC and ICFR principles.
- Invoice Matching & Account Reconciliation:** Performed vendor account reconciliation and resolved mismatches, enhancing accuracy in financial reporting and strengthening internal control processes.
- Inventory Tracking & Cashflow Optimization:** Managed GRN processing and coordinated with inventory teams to streamline material movement and improve working capital efficiency.
- Budgeting & Forecasting:** Conducted variance analysis to enhance financial planning.

## Projects

- NHPC – Risk Analysis using CAPM:** Evaluated systematic risk and expected return to support investment decisions.
- Piramal Pharma – Financial Analysis:** Assessed financial health through ratio and trend analysis to evaluate performance and valuation.
- Power Sector – Industry Research:** Mapped key players, market trends, and macroeconomic factors affecting the industry.
- Amazon vs Future Retail – Strategic Case Study:** Analyzed business model shifts, regulatory impact, and financial implications.
- Nestlé in Emerging Markets – Case Study:** Studied entry strategies, operational challenges, and financial performance in new markets.
