Summary

Proven Testing Engineer from GE VERNOVA, adept in electrical testing and data analysis, showcased through impactful improvements in testing protocols and compliance with international standards. Excelled in problem-solving and team collaboration, enhancing efficiency and safety in transformer testing processes.

Education

Gujarat Technology University

B.E Electrical Engineer

Government Engineering Collage, Bharuch

2020 – 2024

CGPA: 6.95

Gujarat Higher Secondary Board

HSC-Science

Alembic Vidyalaya

March-2020

percentage: 54.15

Gujarat Secondary Board

SSC

Shree Vidyamandir Vidyalaya

March-2018

percentage: 71.50

Experience

GE VERNOVA

TESTING ENGINEER (Teamlease Consultancy Contract)

July-2025 – Present

APPRENTICE TESTING ENGINEER

July-2024 – June-2025
Vadodara

- Conduct electrical tests on transformers routine test in CCA and FAT test.
- Analyze test results and prepare comprehensive reports, including test data, observations, and recommendations for improvements.

- Perform inspections on transformer components (e.g., bushings, tap changers, and oil systems) to ensure compliance with safety standards and specifications.
- Ensure that testing procedures comply with national and international standards (e.g., IEC, ANSI, IEEE).
- Maintain accurate records of test results, and update testing manuals and procedures as necessary.
- Provide technical support and guidance to other engineers and technical staff as needed.
- Enhanced knowledge of electrical systems, magnetic circuits, and thermal management techniques in transformer applications.

Skills

- Problem Solving
- Team Collaboration
- Adaptability
- Data Analysis and Reporting
- Standard and Regulations Knowledge
- Electrical Testing Knowledge
